

Seminary Doesn't Have to be a Burden!

Lighten your load with Accordance Bible Software

Lexicons, Commentaries, Workbooks, Grammars, Dictionaries, Concordances... big books look good on a shelf, but they sure can weigh you down on campus!

Why not load all that information in your shiny new Mac Book, and access it instantly with Accordance, the premier Bible Study program for Mac?

To help lighten your load, we're offering a [Back-To-School Sale](#) on the packages and modules you need most!

Month of August Only

Not only for students! (Don't forget to ask for your student discount.)

Good News for the Emulator

We have posted an old version of StuffItLite which will enable users to compress Accordance User files such as Notes, Tools, Highlights, etc., and move them via their Windows system to another Emulator or to a Mac.....

ESV Update

We temporarily released the updated ESV as a separate second edition. We then realized that Crossway prefers that this update replace the original ESV rather than consider it a second edition. The updated version has been posted as a free upgrade. It can be downloaded by the AccUpdater widget, or using the installers on the [Purchased modules](#) page.
